

FRANK J. JONES TO GO DOWN WITH THE REBELS

Frank Hearing to Be Postponed Another Week

DORSEY IN VALDOSTA SAYS HE CANNOT BE READY BY SATURDAY

"Working Hard," Says Solicitor, "But Will Be Lucky if We Get Ready by a Week From Next Saturday"

Special dispatches from Valdosta state Solicitor General Frank J. Jones is declaring positively that he will not be ready for the argument on the defense motion for a new trial for Leo M. Frank on next Saturday.

"We are making slow progress," Mr. Jones said. "We are working hard, but we cannot possibly be ready for a hearing on Saturday. We will consider a hearing for the next week."

Mr. Jones is in Valdosta with his wife, Mrs. J. A. Jones, and they are both devoting their entire time to a perusal of the arguments against a new trial. Mr. Jones is a prominent lawyer in Valdosta.

The defense motion for a new trial is being argued by Mr. Jones and his associates. The motion is based on the fact that the jury was not properly instructed and that the evidence was not properly presented.

In One Inning Matty Retired Side on Just Four Pitched Balls—Plank Fanned Many Giants

SHINE PARK, Philadelphia, Pa., Oct. 8.—With "Baker's Alley," where dozens of home runs driven by the Athletics have found their way into the outfield, the hope of the Mack backers was given a decided boost for the second game here today.

It was Christy Mathewson, the McGraw veteran of thirteen campaigns, who was selected to do the sound work in the first foreign game. He was easy from every pile in the game and as he is ready to quell the Athletics on their home ground.

Mathewson, the veteran of many hard-fought battles, including a world series with the New York Giants, was on the mound for the home club. Plank had been roomed for the second game here today.

Lapp was doing the catching for the Athletics. He was easy from every pile in the game and as he is ready to quell the Athletics on their home ground.

ATLANTA'S MILK SUPPLY IS SEVERELY ARRANGED

State Agricultural Department Experts Address Large Audience in Taft Hall

Atlanta's milk supply was severely arranged Tuesday night at the milk meeting held in Taft hall under the joint auspices of the state department of agriculture and the Atlanta chamber of commerce.

By stenographic views and reports of chemical analyses, experts of the department showed that many dairies are alarmingly unsanitary and that the bacteriological count of milk sold in Atlanta runs far above the maximum limit allowed by the city ordinance.

The first three rows of seats were occupied by trained nurses. The women's claim of the city and the dairy industry were well represented. Among the men were some of the city's leading citizens.

The speakers were J. D. Price, commissioner of agriculture, Dr. R. E. Balling, state chemist, Dr. Kenneth M. Atkins, state bacteriologist, and Dr. Peter P. Hansen, state veterinarian.

Mr. Price explained that the movement by his department to obtain better milk is not confined to Atlanta or Polk county, but is statewide in its scope. Although he considered the milk supply in Atlanta far below the proper standard, he believed it could be corrected within thirty days if the dairymen and consumers would observe the suggestions of the department of agriculture.

Dr. Balling stated that the department has examined between two and three hundred samples of milk taken in and around Atlanta, and from these examinations he summed up his conclusions as follows:

"The conclusion I draw is that Atlanta, as a whole, is not getting good milk. I may state, however, that we find that dairymen are taking advantage of the suggestions offered by the department of agriculture."

Dr. Atkins went into detail in reporting the results of analyses of samples of Atlanta milk.

He showed cotton rats through which milk had been strained in the dirt tests, and out of nine tests six rats were dark with discoloration from the dirt in the milk.

Asking his hearers to bear in mind that the city ordinance of Atlanta allows a maximum of only 100,000 bacteria to the cubic centimeter, and that very few cases have been made by the city authorities for exceeding this limit, Dr. Atkins then reported the results of his bacteriological analyses.

Examination of 241 samples showed an average count of 1,325,000.

Of these samples, only 15 showed a count under 100,000.

Examination of 102 samples taken from producers near and far, who ship into Atlanta, showed an average count of 420,000.

Of these samples, 57 showed less than 100,000.

Examination of 60 samples from producers in Atlanta, or within a few miles, showed an average count of 257,000.

Examination of 39 samples taken from wagons, or at the dairies, showed an average count of 565,000.

Examination of 75 samples taken from milk depots in Atlanta, showed an average count of 1,575,000.

Examination of 35 samples from downtown depots in Atlanta, showed an average count of 2,054,000.

Examination of 23 samples taken from soda fountains showed an average count of 2,416,000.

Examination of six samples from the street hotels in the city showed an average count of 2,416,000.

Dr. Atkins then exhibited photographs showing why these conditions exist. Among other things, the pictures showed milk cans standing uncovered within a few feet of manure piles, where doors propped open, dirty pails hanging in dairy houses, milkmen plugging their dirty arms into milk cans, chickens roosting on milk cans, etc.

Dr. Hansen made a bit with the

ROBERT B. JOHNSON ASSOCIATED WITH J. C. MCMICHAEL IN AD WORK

Mr. Johnson Has Bought Half Interest in Successful Firm Which Has Brilliant Prospects for Future

Cordial interest greets the announcement that Robert B. Johnson will be associated in the future with J. C. McMichael in the advertising business.

Mr. Johnson has bought a half interest in the business and has been chosen president of the firm. Mr. McMichael will hold the offices of secretary and treasurer.

The association of the two men will mean added growth for the concern, which has prospered under the direction of Mr. McMichael, who, under the name J. C. McMichael, Inc., has built the business up to the point where the agency is recognized as one of the solid advertising concerns of the city.

Mr. Johnson formerly was a newspaper man, and has had much experience in advertising. He is a well-known manager for the United States Magazine for some time, and for the past two years has been connected with the American Monthly Magazine.

The experience of both Mr. McMichael and Mr. Johnson assures successful success for the agency, which continues to add the new personnel with the brightest prospects.

CITY TO TAKE ACTION ON TRAFFIC CONGESTION

Joint Meeting of Council and Chamber of Commerce Set for Thursday

The joint committee from the general council and chamber of commerce appointed to make an investigation into the congested condition of the streets in Atlanta, will hold its first meeting Thursday afternoon. At that time a chairman will be named and the first steps toward better traffic regulation taken.

The creation of this committee is the result of numerous complaints that have come to the attention of Mayor Woodward during the past few days in reference to obstructions on some of the principal business streets of the city.

His attention of late has been called by the high fence in front of the building at the corner of Broad and Alabama streets.

"So long as the city allows contractors to tear up the streets and place obstructions in the way of vehicles," said the mayor, "traffic in the prominent streets in Atlanta will be impeded. I have fought for a long time against the abuse of the privilege the city extends to contractors to facilitate public improvement, but my hands are tied unless council acts with me."

Chairman Orville H. Hall, of the street committee of council, desires that unless more stringent traffic regulations are adopted conditions will go from bad to worse. The committee has been granted a few permits because it did not care to be placed in the light of discriminating against one in favor of another. "We realize," he said, "that something must be done to relieve the present traffic conditions."

Chief of Police Beavers and Fire Chief Cummings are both in hearty accord with the move and have promised to lend their aid in getting relief.

The regular term of the council is now in session in Atlanta. Judge Foster, who is a district judge in Louisiana, is sitting with the court in the executive office late Tuesday afternoon to pay their respects to governor Blanton.

NEGRO WOMEN ASSIST IN NUMEROUS HOLD UPS

Numerous complaints have been received at police headquarters of hold ups in which women have assisted. No less than a dozen highway robberies, in which negro women figures have occurred in the city within the past few months.

Marion Smith, employed as a solicitor on one of the daily papers was robbed on his way home Tuesday night. He was attacked from behind by two negro men at the corner of Washington and Mitchell streets. While the men held him two negro women searched his pockets and relieved him of \$17 in cash and a valuable stick pin. Policemen Milam and Palmer are investigating.

SUB-COMMITTEES NAMED ON W. & A. COMMISSION

Four Sub-Committees to Consider Various Aspects of W. & A. Problem

At a meeting of the steering committee of the legislature's special Western and Atlantic railroad commission, held Tuesday evening at the Ansley hotel, Chairman G. Gundy Jordan, of the commission, announced the following committees:

Committee on Atlanta Terminals—Messrs. Atkin and Greene.

Committee on Chattanooga Terminals—Messrs. Tarver and McNell.

Committee on Double Tracking—Messrs. Fulbright and Cole.

Committee on Form of Lease—Messrs. Callaway and Brown.

Chairman Jordan and Secretary Barry Wright, of the main committee, are executive members of all subcommittees. It was at the conclusion of a dinner under the steering committee, the subcommittee, special guests at the dinner were: Attorney Joseph Alexander, W. A. Wimsham and Ed T. Brown, of Atlanta. Each of these gentlemen has in times past been employed as special attorney for the W. & A. railroad and their information will prove beneficial to the commission.

The commission, which holds its next meeting on Thursday in November, is made up of the following: From the senate—J. W. L. Brown, W. D. McNell and M. C. Tarver. From the house—Barry Wright, L. R. Atkin, A. B. Greene, E. D. Cole and H. J. Fulbright. From the state-at-large—G. Gundy Jordan and Peter E. Callaway. The present lease of the W. & A. expires December 27, 1915.

HUNDREDS CLAMOR FOR JOBS IN CIVIL SERVICE

Examinations for Postal Carriers and Clerks Will Be Held November 5

Over 200 applications, an unusually large number, have been received by the Atlanta civil service office for the examination for postal carriers and clerks which will be held here on November 5.

While no tabulated records are kept showing the number of white and colored applicants, it is understood that an unusually large percentage of the applicants are white.

"The number of applicants to take the examinations in Atlanta is about one-sixth of the total number in the Fifth district, applications having been received from about 1,200 people."

On November 5 also will be held an examination for a bookkeeper, typewriter and stenographer, all in one, for the post at the United States National Park Commission at Pittsburgh Landing, Tenn.

For the qualifications comprised in the three offices the government offers the annual salary of \$900.

Postmaster Landrum is about twenty or thirty miles from the railroad, and his salary is quite low. He has no government complaints in his circular that it has difficulty in getting the position and large salaries to compete.

Examinations will be held December 20 and 21 for teachers in the Philippines, and both men and women are eligible as applicants.

CHENEY'S EXPECTORANT

Cures Running of the Nose, Cough, Croup, Sore Throat, Hoarseness, Whooping Cough, Asthma, etc.

Creole Brand Coffee, 25c lb.

These Are Splendid Days to See the New Goods at

M. RICH & BROS. CO.

\$10 Shapes of Hatters' Plush \$5.98

THE smartest millinery shapes of the season and the cheapest. It comes about because we secured a wholesaler's surplus of five dozen hatters' plush shapes. The hats are of a fine quality hatters' plush, all black or black with underbrim of myrtle green, purple, taupe, dark red or brown. Five styles in all—three (\$3) of them illustrated.

Fancy Feathers \$1.48 Aigrettes at \$5.98

Choice of two styles; the trim around and aigrette effects. Purple, blue, emerald and brown. Genuine aigrette, extra long, branched with twelve fronds to the bunch. White or black. (Millinery, Second Floor.)

Silks of Surpassing Splendor

A Sumptuous Display of Rarely Beautiful Silks, Masterpieces of the Foreign Looms; Artistic Dreams Made Manifest; Superb!!

In our 46 years of silk selling, we have never assembled silks of such surpassing beauty. The wizards of the silk world have achieved fabrics of exquisite elegance. Magicians have waved their wands. Charming color harmonies and delightful draperies result. Surely the work of fairy fingers.

A glance over the stock is fruitful in ideas for bewitching gowns and waists. It's a lavish silk stock, surpassing anything heretofore assembled in Atlanta. Included are:

Brocade Silks, \$2.50 to \$5.00. Flowered Taffetas, \$1.50. Silk Tapestries, \$1 to \$3. Silk Moires, \$1.50 and \$2.50. Plaids and Stripes, \$1 and \$2. Silk Duvelines, \$8. Silk Failles, \$1.50 to \$8.50. Regainettes, \$1.50 to \$3.50. Silk Poplins, \$1.50. Plain silks, all kinds, \$1 to \$4. (Silk Annex, Main Floor, Left)

WE ARE ASSOCIATE DISTRIBUTORS OF

THE best furniture craftsmen in the world have always been the Dutch. Centuries ago, Spain imported its furniture from Holland. When Spanish missionaries and monks founded missions in Mexico and California, they crudely reproduced this Dutch furniture and used it in their missions. Hence, today we have MISSION FURNITURE.

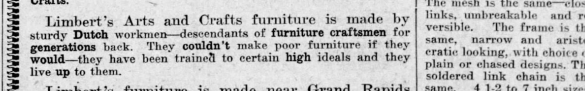

But the mission furniture of those old days was as far from being the artistic Dutch furniture from which it was copied, as modern mission furniture is from Limbert's Holland-Dutch Arts and Crafts.

Limbert's Arts and Crafts furniture is made by sturdy Dutch workmen—descendants of furniture craftsmen for generations back. They couldn't make poor furniture if they would—they have been trained to certain high ideals and they live up to them.

Limbert's furniture is made near Grand Rapids at Holland, Mich.—the largest settlement of Holland Dutch in America. And nearly every one is a worker in Limbert's furniture.

As illustrated, Limbert's Holland-Dutch Arts and Crafts furniture is made of simple, artistic lines—there is no carving or applied ornament to hide a defect here, a blemish there, or otherwise to cover up poor workmanship. For Limbert's has nothing to hide. Like true art—it stands forth naked, unadorned and unashamed.

Of course this kind of furniture costs a little more than the ordinary kind—and it's richly worth it. We shall be pleased further to show you why. (Furniture Department, Third Floor.)

First Showing of New Cluny & Smyrna Laces

—A commanding display of charming Smyrna and Cluny hand made linen laces. In artistic patterns dear to the feminine heart for trimming infants and children's garments and for trousseaus. Various in designs, bands and edges from 1-4 inch to 5 inches wide and 8 cents to \$3.75 a yard.

—Because these are our own direct importation, you will find prices noticeably lower than elsewhere. The designs, of course, will be found only here. (Laces, Main Floor, Right.)

New Styles in Autumn Silks Including Smart Plaids & Checks

New arrivals in fashionable silks. Cheerful plaids in bright greens and blues and reds; more subdued greys and browns; pronounced black-and-white checks; shepherd checks; black-and-white plaids. Some are severely tailored; some have a slit at bottom; some are draped, or otherwise changed, by a clever turn of the cutter's shears. All are new and strictly in the mode. \$5.95, \$6.95, \$7.50 to \$10. (Second Floor.)

"Kloshi" Silk Petticoats \$4.95

A new shipment just at \$4.95

Daniel's Free Premiums For Thrifty Men and Women

There are a few old fogies who think our Profit-Sharing Plan is all wrong—to these we ask what difference does it make, if we cut down the money appropriated for advertising in Newspapers, Magazines and other kinds of printers' ink and share it with our customers.

What Is Home Without an Appetite?

Many a Miserable Dyspeptic Can Quickly Enjoy a Good Appetite Using Stuart's Dyspepsia Tablets.

There is nothing so deplorable as a home where at every meal one member of the family sits in silence eating a special diet while others are partaking of the regular food.

Not only does this condition become almost unbearable to the dyspeptic, but it throws anything but a joyous spirit over the rest of the family.

The Child—"Please eat some nice chicken, papa."

The Father—"No, Buster, daddy don't feel like eating."

The presence of dinner before him that a stomach sufferer cannot eat, makes him sick at the stomach and he is actually doing himself an injury when he eats at such a table.

A Stuart's Dyspepsia Tablet taken after each meal will excite appetite and in a short time one will find no slight of food becoming less and less repugnant until after a few meals one will take courage enough to join with the family in the regular fare.

As soon as this is done and there follows no evil effects from continuing the use of Stuart's Dyspepsia Tablets you will soon be restored to your normal, healthy and vigorous appetite.

One of the real pleasures of eating is the joy of smelling and seeing food. These qualities are essential to the normal digestion for they excite the flow of saliva in the mouth, and the gastric juices in the stomach and that make ready the digestive apparatus for the food when it is eaten.

Stuart's Dyspepsia Tablets contain ingredients that every system needs. Weakness of fluids of nature used in digestion are quickly restored to their normal proportion, and in a short time one is so evenly balanced that the system can manufacture its own gastric juice and hydrochloric acid as it should.

Go to your drugist today and buy a box of Stuart's Dyspepsia Tablets, price, 25 cents.—(Adv.)

SAGE TEA PUTS LIFE AND COLOR IN HAIR

Don't Stay Gray! It Darkens So Naturally That Nobody Can Tell.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50 cent bottle of "Wynette's Sage and Sulphur Hair Remedy" at any drug store. Millions of bottles of this old, famous Sage Tea Remedy are sold annually, says a well known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray, becoming faded, dry, scraggy and thin have a surprise awaiting them, because after only two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful—all without any use of harsh chemicals and without any loss of falling hair.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around. Get out with Wynette's Sage Tea Remedy tonight and you'll be delighted with your dark, lustrous hair and your youthful appearance within a few days. (Adv.)

OUTRINGS FOR LITTLE ONES

Assisted by occasional gentle applications of Cuticura Ointment. They are most effective in treating sunburn, heat rashes and summer eczemas.

Cuticura Soap and Ointment sold throughout the world. Largest supply of Cuticura Soap and Ointment at the Atlanta Journal Building, 121 Peachtree Street, N. E., Atlanta, Ga. Write for free literature and sample of Cuticura Soap and Ointment.

The next Bell Telephone Directory goes to press soon. Now is the time to subscribe in order to get your name in the new book. If you wish to make changes or corrections in your listings, call at the nearest business office, Southern Bell Telephone & Telegraph Co.

Banker Honored

Signal Honor Paid Atlanta Man by Association Now Meeting in Boston

John K. Otley, vice president of the Fourth National bank, and one of the most prominent bankers of the city, was paid high honor Tuesday when he was elected president of the clearing house association of the American Bankers' association, which is in session in Boston, Mass.

Mr. Otley's election is gratifying to his many Atlanta friends, for he is not only highly esteemed by his business associates, but is personally liked and admired. He is a representative of the progressive life of the community, and is an able representative of the city's financial circles in the clearing house.

A. O. Wilson, of St. Louis, was chosen vice president of the clearing house association, which is in session in Boston, Mass.

The meeting of the clearing house association was one of four sectional meetings preliminary to the opening of the fall convention.

W. J. Henry, of New York, was chosen president of the state secretaries' section, with F. W. Hall, of Iowa, as secretary-treasurer.

J. P. Sartor, of Los Angeles, was elected president of the savings bank section, and in the trust company section, F. H. Goff, of Cleveland, Ohio, was chosen president.

Atlanta may win the next convention of the bankers, as the Atlanta delegation will make an energetic effort to bring the association here for its next annual meeting.

JOHN K. OTLEY.

Mr. Otley, who is well known in social and business circles, was elected president of the clearing house branch of the American Bankers' association Tuesday.

ATLANTA.—North of "52."

FORGET—Vaudeville.

LYRIO—"One Day."

LYRIO—"The Messenger Boy."

Beginning with a Wednesday afternoon matinee and continuing through the week the Atlanta will offer twice each day the wonderful pictures of the universe, those taken north of 12.

These pictures show the great Alaskan country in its best and worst, the show mining scenes of intense interest and picture life where the cold is at its fiercest below zero.

The wonderful slide shows in the city, the dog train is shown carrying mail and passengers just as they are and winnowers around Noun, Yukon, and the other north country are given.

"A Son of Solomon" the sketch being presented by Hugh Herbert and his company at the Forsyth this week, is one of the most interesting vaudeville plays yet staged. There is considerable work to the sketch than one finds in vaudeville because of the novelty and originality. It tells the story of a wayward son and a devoted daughter, and a type character that shows beautiful quality.

Splendid audience have witnessed Cecil Spooner's dramatization of Elmer Glyn's interesting story, "One Day," which is being offered this week at the Lyric. The play is in four acts and is one of the great love stories of the last decade. The company is made up of the best talent and the scenery is remarkable.

Matinees will be given on Thursday and Saturday.

With "The Messenger Boy" Jewell Kelley is adding another success to the six weeks' engagement of his stock company at the Bijou.

Eddie Black and Earl Higley, the comedy roles of dirt, the newboy, and a funny, turn out to be a capital comedy that keeps the audience highly entertained. The company is made up of the best talent and the scenery is remarkable.

Matinees will be given on Thursday and Saturday.

Without doubt the most dramatic event in the history of the world was the destruction of Pompeii in 79 A. D. by a terrific eruption of the volcano, Mount Vesuvius.

Lord Butler Lytton in his famous romantic novel, "The Last Days of Pompeii," has immortalized the event, and data obtained from scientific research and investigation, people believe in the truth of the story.

Mr. George Kleins with his photo-dramatization of Lord Lytton's novel will do even more to reveal the truth of the story than any other modern dramatist. His pictures of the eruption give a most impressive and vivid idea of the awful magnitude of this world-famous catastrophe.

Mr. Kleins' photo drama, "The Last Days of Pompeii," will be presented at the Grand for six nights, beginning Monday, October 13, matinee at 2 and 4 p. m., the two evening performances at 7 and 9 p. m. Prices, matinee, 25 cents, night, 50 cents.

Meet and Marry In Just Two Weeks

After an acquaintance of only two weeks, Miss Bertha Elliott, of Atlanta, Ga., and Mr. Robert Dixon Daise, of Pittsburgh, Pa., decided to get married, and, as a result, the pastor of one of the leading churches was called upon Tuesday to officiate at the wedding.

Friends and acquaintances, except a "Saved few" are still in ignorance of the fact that she, whom they knew as "Miss Elliott," was really Mrs. Daise, but who is now in Birmingham, has been notified, and has sent her good wishes.

The wedding took place at 1230 O'clock Sunday, Rev. C. W. Daise, of the First Baptist church, officiating. Miss Louise Gales, Miss Emily Hadden, Tom Gates, Joe Craig and Tom Conally were the attendants.

"Of course, it was unexpected," admitted the bride Wednesday, "but then both Mr. Daise and myself are old enough to know our own minds, and we had already decided soon after we met each other that we would get married."

COMMITTEE PLANS TO FORM CITY MARKET

Will Devise Way Whereby Demand of Atlanta Housewives Can Be Filled

The first definite step towards solving the high cost of living question in Atlanta will come Wednesday afternoon at 4 o'clock when the public market committee of the chamber of commerce meets to devise means whereby such a market may be established.

The question of establishing a public market in Atlanta has been a topic of conversation for many years, but up to this time the move has never before taken definite shape. Just now it appears that something is really going to be done.

Those who are leading spirits in the proposition are in the successful consummation of a solving of the present high cost of living and at once an acquisition to the city's trade center that will be of great benefit to all.

Not only has the proposition been taken seriously by the chamber of commerce and a few citizens, but it has secured the endorsement of the women's clubs and leading housewives are clamoring for the establishment of such a market. They have pledged their efforts to assist in the move and will lend their time and energy toward this end.

The meeting Wednesday afternoon gives promise of bearing fruit and there is every reason to believe that the immediate future will see the establishment of the market. Interest

MESSANGER BOY RUN DOWN BY CITY WAGON

Fred Holder Has Legs Horribly Mangled in Accident Wednesday Morning

Fred Holder, a fourteen-year-old messenger boy for the Western Union Telegraph company, was run over and his legs terribly mangled by one of the city's wagons at the corner of Alexander and Plum streets shortly before 9 o'clock Wednesday morning.

The boy was rushed to the Grady hospital in the ambulance, while City Policeman P. J. Davis arrested Frank Watson, the negro driver. The negro was afterwards taken to the police station in charge of County Officer Baker, who was passing at the time in the county chief's auto on his way to the city. A charge of reckless driving was entered against the negro.

Young Holder had recently moved here from Rome, Ga., and boarded at 340 Luckie street.

INDUSTRIAL TRIP OVER CITY OF ATLANTA
Through the industrial and statistical bureau of the chamber of commerce an industrial trip over Atlanta is being planned for its citizens and the chamber members. The trip which will be taken, his rail will include all of the industries adjacent to the city and the big plants on the outskirts of Atlanta.

W. H. Leaky, secretary of the bureau, who has the expedition in charge, hopes to have everything in readiness within a week or ten days.

In the movement is city wide and it is an assured fact that it has the support of practically every individual.

GOVERNOR SLATON NAMES BOARD FOR GIRLS' HOME

Mrs. W. H. Felton and Mrs. Z. I. Fitzpatrick Are Named

Governor Slaton Wednesday morning announced the appointment of the members of the board of managers of the Georgia Training School for Girls (the wayward girls' home). Following are the members and the terms which they will serve:

Rev. M. Ashby Jones, D. D. Augusta, for term ending June 30, 1915.
Mrs. W. H. Felton, Cartersville, for term ending June 30, 1915.

Wilmer L. Moore, Atlanta, for term ending June 30, 1915.
Mrs. Z. I. Fitzpatrick, Madison, for term ending June 30, 1914.

Judge William D. Lewis, Waynesboro, for term ending June 30, 1914.
Each member of the board must give a bond of \$500. The board has been called by the governor to meet at the capitol on Saturday, October 25, at 11 a. m. to organize and to transact such other business as may come before it.

The recent annual assembly approved buildings for the new home and maintain same until next year. It will be up to the board of managers to decide where the home shall be located.

Respite for Gathright
The prison commission Wednesday recommended to Governor Slaton that Gathright, a negro, sentenced to hang on Friday.

POSTOFFICE FORCE TO BE OVERHAULED

Postmaster Bolling Jones to Make Personal Investigation of Forces

Postmaster Bolling Jones held a conference Wednesday morning with R. E. Barry, chief of the division of postoffice inspectors, the object of the conference being to discuss a thorough investigation as to the efficiency and inefficiency of postoffice employees.

The investigation will be made by the postmaster in order to thoroughly familiarize himself with conditions in the postoffice.

It probably will result in the dismissal of several employees against whom charges of inefficiency have been made, and probably will effect more than any one else colored employees whose service has not been up to the mark required.

"I find," said the postmaster, "that my plan of substituting white messenger boys for the delivery of special delivery mail has worked out most satisfactory. The boys are doing splendidly. They are working willingly and are earning their money."

"There hasn't been a kick on the service since those boys went to work," volunteered Inspector Barry.

"I am investigating all complaints fully," said the postmaster. "My attitude is one of absolute fairness to every man, and I want the co-operation of every person and every enterprise in the city in making the service here the best possible."

COL. THOMAS HARDEMAN PASSED AWAY TUESDAY

Well Known Citizen of Wadley, Ga., Dies at Age of Seventy Years

WADLEY, Ga., Oct. 8.—Colonel Thomas Hardean, one of Jefferson county's most prominent and influential citizens, died at his home here yesterday afternoon after an illness of several months. For several days his death had been expected.

Mr. Hardean was seventy years old and had devoted his entire life to farming. A poor boy with nothing but grit and perseverance, he leaves quite a valuable estate. He was vice president of the First National bank of this place and was for a number of years president of the county board of education. He is survived by three brothers, Colonel Isaac Hardean, of Macon; Dr. Jack Hardean, of Haddock; Colonel E. W. Hardean, of Gray; besides his wife, two sons and four daughters.

His place, Mrs. M. W. Blunder and Miss K. Hardean, of this place; Mrs. W. A. Kennedy, of Covington, Ga.; and Mrs. A. M. Wylie, of Chester, S. C.

The funeral will occur this afternoon at 2 o'clock here.

Cotton Gin Fire
A gin house belonging to Oscar Shaw, in the Grutter district, near Marietta, was destroyed by fire Tuesday night. The loss was about \$2,500. No insurance.

Boys! Are You as Wise as Your Daddy?

SAY, BOYS! Isn't it just fine if, when company calls at the house, you can take part in the conversation with the grown folks—if you can discuss topics just like daddy.

Well, let us tell you, boys—that's just what you'll be able to do—if you "read up." And let us furthermore tell you that THIS "read up" has the GREATEST assortment of interesting books for BOYS, in the entire South. Come in and browse around! See the splendid 25c and 50c books for boys!

MOTHER! MOTHER! YOUR CROSS, SICK CHILD NEEDS ONLY "CALIFORNIA SYRUP OF FIGS"

If peevish, feverish, tongue coated, give "fruit laxative" at once.

No matter what ails your child a laxative should be the first treatment given. Look at the tongue, mother! If coated, it is a sure sign your "little one's" stomach, liver and bowels need a gentle, thorough cleansing at once. When cross, peevish, listless, pale, doesn't sleep, eat or act naturally, if breath is bad, stomach sour, system full of cold, throat sore, or if feverish, give a teaspoonful of "California Syrup of Figs" and in just a few hours all the clogged-up, constipated waste, sour bile, undigested food will gently move out of the bowels and you have a well, playful child again.

Stick children need laxative. Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. They also know a little given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits, said here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind, kind.

Peerless Sale

Women's and Misses' Very Newest Fall Suits Thursday, October 9th

Atlanta's GREATEST BARGAIN Event

An unequalled underselling event. A merchandising achievement that must go down in Atlanta's retail history as a money-saving sensation. The proof is before your very eyes, and each and every word lends emphasis to the claim that this IS Atlanta's greatest bargain event. Store opens 8 A. M. tomorrow for this momentous occasion. See our show windows.

The Story:--- Last Friday our Suit Buyer received word there was to be a Suit Sale to be made in New York--unprecedented. In 30 minutes railroad tickets in hand and was off. Below we show you a copy of his N. Y. Telegraph Message to us--picture of Manager handing same to "Ad" man and now we pass the news to the Ladies of Atlanta and State of Georgia. Means "Quick Action" the Suits are here by Express for Thursday's Rapid Selling. Really this a chance of a life-time.

Now Be Honest in satisfying the Purse, getting high-grade tailored Suits and offering them at **\$19.75**

Don't we work hard to please you

It's surely the chance of the season. We have done our whole duty. Come, bring your neighbors.

Greater Millinery Dept.

"Peerless" Sale of Black Untrimmed Velvet Hats

the popular craze of this fall season. Shown by us in this Greater Millinery Department in TWENTY DIFFERENT SHAPES, including the New French Draped Crowns. Every express since Monday has brought these different styles. You are bound to get the hat you want here.

Just Three Prices **\$1.95, \$2.45, \$3.45.**

NIGHT LETTER

THE WESTERN UNION TELEGRAPH COMPANY

35,000 OFFICES IN AMERICA. CABLE SERVICE TO ALL THE WORLD

THE COMPANY TELEGRAPHS AND DELIVERS ORDERS only on messages bearing no liability, which have been received by the end of the following morning, subject to the usual conditions of service.

Received at The Journal Bldg., Atlanta "5222"

85 NY NB 80 Collect NL MS New York, Oct. 6, 13.

J. M. High Co., Atlanta, Ga.

I am sending you per express two hundred Schwartz tailored suits in the latest models and in all sizes in the assortment are many blacks and blues as well as other good colors. These suits are hand tailored and mostly Skinner's satin lined and values up to thirty five dollars advertise strong for one day's selling and make choice of the entire lot at nineteen seventy five and I warrant a record breaking sale will follow.

Take it all and Congress hasn't watched the clock to hurt.

Traffic Regulation, a Necessity.

The committee from Council and from the Chamber of Commerce which are to co-operate in devising better traffic regulations for Atlanta's streets have a peculiarly important task. On some thoroughfares, conditions in this regard have become well-nigh intolerable. Unless the present congestion is somehow relieved, it will pass beyond the stage of mere inconvenience and become a menace to the public and a hindrance to business.

This problem emphasizes the need of a well-designed, far-sighted, plan that will guarantee thoroughfare against the same trouble in years to come. Atlanta's development is proceeding so rapidly that streets which today are inadequate for their traffic will soon be altogether inadequate.

The immediate need, however, is for regulation, such as most municipalities of this size have long ago adopted. The personnel of the Council and the Chamber of Commerce committee make it certain that this question will be well considered and that valuable suggestions will be forthcoming.

No world series returns for those Mexican army men.

Another boost for the floating population of New York.

Yuan Is Still the Man.

There were twenty odd candidates in China's recent presidential election, a fact which shows that the young republic is following faithfully in the steps of its good friend, the United States. One of the interesting and rather odd characteristics of a hale democracy is the freedom and zest with which every man runs for any office that strikes his fancy. His chance to win is merely a secondary consideration; the important thing is to run and there is no lack of runners in hopeful China.

In the course of Parliament's balloting, however, all candidates save two or three were soon eliminated and the choice finally fell upon Yuan Shi Kai, the provisional president, by a two-thirds majority. The selection of Yuan for the term of five years bodes well for the country's future. He has been at the head of the government for two years and has steered it through several troublous scenes. He has the confidence of foreign Powers and evidently the trust of his own people. China is moving steadily forward.

Many a school boy would be willing to do his part toward making runs in the Atlanta schools.

If the Panama canal can withstand an earthquake, there is no reason to worry about naval attacks.

Don't Walk On Railroad.

The loss of fourteen lives in a wreck would loom forth as a national horror; yet, statistics show that there is an average of fourteen deaths every day caused by the dangerous custom of walking on railroad tracks or otherwise trespassing on such property. It is estimated, indeed, that in this manner occur more than half the fatalities incident to railroads in the United States; and the majority of the persons thus killed are not tramps but children and valued citizens.

The time has come when the public should take serious note of this record with its grim warning to all who are accustomed to use railroad tracks as a common highway. The transportation companies are exerting themselves to end this peril and the Interstate Commerce Commission has spoken to the same purpose. After all, however, it is upon the individual that responsibility must rest; it is popular sentiment and popular judgment that must correct this evil. Five thousand lives a year is a terrible sacrifice to carelessness. It can be reduced and prevented only through individual recognition of the great risk in walking on a railroad track.

This matter should not be of peculiar concern to the South where railway traffic is fast increasing. In Georgia and neighbor States many more trains are in operation today than ten or even five years ago and their number is continually multiplying. The danger to pedestrians who venture on the tracks is accordingly more and more serious. It is far better to stick to the muddest highway or the roughest road than to take the deadly chance of following a railroad track simply because the latter affords easier walking.

Much emphasis is now laid on the need of greater caution in the traffic of crowded cities but it is scarcely less important to remember that in rural districts and in the open country there lies a constant jeopardy of life to everyone who walks on a railroad track.

Why not revise it to the Good Old Indian Summer Days?

It will be noted that the World's Series didn't lure President Wilson from the job.

Carrying Education to the Farmer.

Everyone interested in the improvement of farm methods and the increased production of food welcomes the announcement of Senator Hoke Smith's determined purpose to secure the earliest possible passage of the agricultural extension bill. This measure has been truly described as one of the most valuable pieces of constructive legislation that has been before Congress in the past fifty years. It provides simple means for carrying directly to the farmers of every State and every county those educational advantages which are now limited, for the most part, to students at agricultural colleges; its aim is to put into practical daily use the wealth of scientific knowledge that has been garnered through long years of professional study and research, but which is now available to comparatively few.

The pending bill provides among other things for a fixed appropriation from the federal treasury of ten thousand dollars a year to every State and further for conditional appropriations, beginning with three hundred thousand dollars a year, to be appropriated among the various States on a basis of rural population, this latter fund to increase annually by the sum of three hundred thousand dollars until a maximum of three million dollars is reached. In order to receive its share of the larger appropriation, each State must contribute to the same purpose an amount equal to that offered it by the federal government. These funds will be spent in each instance through the State College of Agriculture. It is required that "at least twenty-five per cent of the money be used for actual field demonstrations; of the remainder, twenty per cent may be used either for household economics or for further demonstration work."

The enactment of such a bill would put into operation educational forces that would advance the agricultural interests of this country beyond reckoning. It has been said that if half the present store of knowledge concerning the soil and its cultivation were turned to definite account, it would soon revolutionize our system of farming and add incomparably to the nation's wealth. The great problem is to utilize what has already been learned, to give the rank and file of farmers the country over the immediate advantage of scientific data and businesslike methods in their workaday tasks; and the surest, the speediest means of doing this is through a plan of regular demonstration conducted in each agricultural county. President Wilson stressed the need of such an enterprise when he said:

"The farmer has not been served as he might, and should be. We have set up and liberally supported agricultural schools, horticultural schools, schools of poultry raising and others, and they have done excellent work. Our support of them should be hearty and generous; but a more effective way still has been found by which the farmer can be served. Lectures and experimental farms attached to schools are, like laboratories, excellent but they do not and cannot of themselves push their work home. The thing that tells is demonstration work. The knowledge of the schools should be carried out to the farmers themselves. When the farmer does fully take science into partnership and becomes his own master and fortune builder, the day will be gone for once and for all when he can be taxed and ignored."

The farmers' interests in this regard are the common interests of the entire American people. Most problems in their final analysis are problems of the soil. The pressure of the high cost of living has arisen largely from the fact that the production of food has not kept pace with the increase in population. When the government of the United States turns its intelligence and resources to the development of a truly scientific system of national agriculture, as the leading governments of Europe have, many difficulties and dangers that are now alarming will melt away.

The agricultural extension, to which Senator Smith is devoting particular effort, will mark an important stride in that direction. It is one of several kindred measures now before Congress, all of which are meritorious and which should be passed. But the need of adequate farm demonstration work, adapted to the peculiar problems and opportunities of each county, is so urgent that it should be supplied without delay. There is good reason to hope that when the currency bill, which now overshadows all other legislative work, is disposed of, Congress will act promptly and favorably on the agricultural extension measure. To do so will be a distinctive credit to the Democratic party and an inestimable boon to the nation.

Ex-President Taft hasn't reduced his weight so much that he can't give a lusty Yale yell.

In Colonel Roosevelt the South Americans will find a man who lives the idea of a revolution.

No matter how much men rail at marriage, some of them are just a little bit envious of the late Mr. Solomon.

After a man has loafed around a while waiting for his ship to come in he is willing to compromise on a schooner.

It's easy for a bride to imagine her husband is a saint—until she gets acquainted with some of his foul habits.

How happy the average married man would be if he were only half as well satisfied with his wife as he is with himself!

The lower cost of living will not come in an automobile, but rather in the leisurely but sure fashion of a stage coach.

When a man brings home a box of candy for his wife she imagines he is concealing a confession he ought to make—and usually she is right.

Morality Won't End To

BY DR. FRANK CRANE.
(Copyright, 1913, by Frank Crane.)

Another learned judge has advanced into the newspapers and declared ex cathedra that the telephone is corrupting the morals of our youth. Young Hill and Mary can talk much too easily, and the manufacture of "chairs" is working overtime. Besides, telephoning across the wheels of extravagance, since the housewife will not make haste, out of the remnants of the toast when she can step to the phone and order a brand-new steak.

This sort of reasoning is not new. There never has been an step made in the improvement of human conditions but some moral monster arose and pointed out that it would loosen the bonds of virtue. Cities present greater advantages than the country for business, social life, and amusement, and it is a gray-headed platitudinarian that the city is far more dangerous to young people than the country.

Railways are more convenient than the one-horse stage, but beware of them! for you might meet some one in the day coach who will speak to you.

Street cars are opportunities for promiscuous acquaintance, better walk; or still better, stay home.

Something ought to be done to protect innocence also from the limited view of the world.

The only really moral thing seems to be lock your child up in the barn and feed him or her through a knothole.

This whole system of thought is based upon the erroneous idea that it is a parent's chief duty to keep the child safe.

The truth, on the contrary, is that our main task is to fit the child for life when there is no more acquaintance, better walk; or still better, stay home.

Something ought to be done to protect innocence also from the limited view of the world.

Will He Help or Hurt Him?

By Sayward

The other day I was riding on a street car, a rather long journey, and fellow-passengers were a rather good looking man and a small boy, not yet emerged from childhood. My attention was attracted to them by the efforts the boy made to repeat the names of the presidents of our republic in the order of their accession to that exalted dignity, and the child accomplished the task with a single "wobble"—he omitted Millard Fillmore, who came between Taylor and Pierce. I became interested and interposed with a question as to the age of the child, who is five years. Then I was impatient enough to remonstrate with the father and admonish him that what the boy needed was a curb rather than a spur. Said I: "You turn that boy loose; do not give him any task; let him read as suits him, study as he lists. If you put too heavy a load on it that young mind will stagger, perhaps fall."

Possibly the man did argue with me and with a great deal of pride he went to relate that his boy confounded all the Sunday school of his church by reciting the names of the presidents of our republic in the Bible than all his class together. "So much the more reason," retorted I, "to let his mind grow in the open air, to suggest rather than by discipline. Do not put that memory in a hot house; toughen it under the sun and sky above."

And so we came to the parting and he and the boy got off the car. I do not know his name. Happily I shall never see him more and never hear of his promising offspring.

If that child is properly trained he may turn out a genius, but it is just as likely that he will be a mediocre. If his mind is forced the chances are he will break down and all his remaining days he will be a mental weakling. Yet at the age of three years Horace Greeley could read; the same is true of Lord Macaulay. One of the reasons we have not seen Louis Braille, and the reason we have not seen him, is that he knew the French alphabet. But his mind was not forced and it was as lusty as it was subtle. In an hour's conversation he can give valuable suggestion and material instruction to most anybody who will listen.

As for the memory—if it be not attended by its greater brother, meditation, it is something like the state of case Baines observed when he spoke of the memory of his father. He had just composed one of his unpublished masterpieces. The king, always miserable in the hands of his enemies, was now, in the hands of his enemies, confronted Voltaire with his French, who repeated the poem from beginning to end, and his majesty then and there, in the presence of the Frenchman of the unrepentant meanness of plagiarism.

I have no doubt that many a glowing young mind has been made practically impotent by forcing it. A tender young colt cannot bear the burden of a mature and full grown horse. If you have a bright boy allow him to browse in the meadows of learning almost at will.

If the young colt that I met on the street car were mine and I fancied that I could make him what old Simon Cameron contemptuously called "one of them literary fellows," I'd try to do it by suggestion. I'd induce, not force him, to read Robinson Crusoe. Then I'd lead him to Marryat and his tales, delicious for the young mind of eight or ten years. Then I'd put in his hand Oliver Goldsmith's "The Vicar of Wakefield" and let him read it at his mind would long for Plutarch. Then I'd give him Dickens' "Child's History of England," and put Sir Walter Scott's "The Two Rovers" in his hands. Then I'd give him "The Tale of the Two Rovers," and let him read it at his mind would long for Plutarch.

There you have got an educated boy that beats the colleges all hollow. Let him alone. He will search out and master thousands of other volumes. And the man who has acquired "the reading habit" is not only educated, but he is happy.

In my next I shall try to tell you of another young phenomenon who was exploded—by force.

Washington, October 1.

The Rise of the Water Color

Water color as an independent medium of pictorial expression reached a prominent place in England in the middle of the eighteenth century. Its progress from that time to the present has been a steady one. It is a chapter in the history of the art. It is a chapter which C. E. Hughes elucidates in his "Early English Water Color," which has just been issued by A. C. McClurg & Co., in their "Little Books on Art" series.

The earliest water colors were, of course, of much less importance than the copper plate engraving, which was the only means of reproducing a picture in the days of the year that the original drawings began to take the place of the plates. Meanwhile the extension of the translation of the color drawings into merely shaded plates had caused the artists to use colors of such subdued values as would give the engraver the least trouble in their more restricted field.

The market, too, for these engravings was chiefly among owners of houses and lands who wished to possess "recognizable" pictures of their broad acres and stately halls. Mr. Hughes traces from the bent in coloring and subject too early imposed on art, its interesting progress to the glories it attained under the hand of Turner—Kansas City Times.

WOMEN'S WEAR

LREADY-MADE GARMENTS

BY FREDERIC J. HASKIN.

If the woman, looking over the new fall models at the department stores and the ready-to-wear shops, could trace a particular gown from the show window to the Parisian atelier, she would be struck by the fact for the discussions that inevitably will race about when the gown becomes her own.

Women's wear is the subject of more discussion in the United States today than any other topic. There are live, equal suffrage and the new dances—all in the language that centers in the vortex of the woman's fashions.

The fashions come from Paris. In the minds of many Americans that is the worst thing that can be said about them. The movement for American fashions for American women already has attained the proportions of a holy revolution, but as yet the soul of the Parisian mode holds out against the American fashioning industry.

Dressmakers in increasing number, even today, are preferring American modes. The woman who makes for herself a dress, or who has a dress made for her, is a slave of Paris. It may be that she is much, but it is beyond her power to achieve. But a minor share in the flood of ready-made fashions that Paris is rapidly expanding trade circles, making it Paris in self-defense.

Now to trace the gown in the show window. A Parisian designer ransacks the whole history of costume for ideas. He studies the old masters, he knows more of sculpture than the sculptor. He is a once an antiquarian and a historian. He is a Parisian designer. He is a Parisian designer. He is a Parisian designer.

Representatives of American garment makers at buyers from American stores crowd into Paris on its eve of the revolution of economy he calls to New York the result of his quest. He describes his model for the American buyer. He describes his model for the American buyer. He describes his model for the American buyer.

The buyer for the garment maker succeeds by one means or another in getting a few precious Parisian ideas. With no thought of economy he carries to New York the result of his quest. He describes his model for the American buyer. He describes his model for the American buyer. He describes his model for the American buyer.

The gown traces New York. There another designer perhaps the equal in genuine artistic ability of the Parisian creator, nearly always the superior to the French designer, who, in point of fact, is a Russian Jew. The Parisian model, too, it down period. The Parisian model, too, it down period. The Parisian model, too, it down period.

A sample of each of these gown gowns is made covering a wide range in color and fabric as is permitted by the general fashions of the particular season. The buyer for the garment maker succeeds by one means or another in getting a few precious Parisian ideas. With no thought of economy he carries to New York the result of his quest. He describes his model for the American buyer. He describes his model for the American buyer. He describes his model for the American buyer.

With an order book in his pocket case under his arm he starts out to work. He walks from his hotel in the heart of the left district, finds a certain number of orders, and by the time he has made up his mind to the central idea, the motif, come from the French atelier. Now the designer's work is done. The idea is wrought, and the market is attacked.

Buyers come to New York. They come not only from the large cities of the country, but from the small cities and towns. They come to New York to see the three-fourths of the activity we know and describe by the name of "New York style." They come to New York to see the three-fourths of the activity we know and describe by the name of "New York style." They come to New York to see the three-fourths of the activity we know and describe by the name of "New York style."

At his right is a glass door, displaying the world's newest fashions. In the window is a window, and the legend "Office." At his left is a door for "Employees Only." Offer the show room door boys a glass of beer, "Balsam Not Admitted." J. J. BROWN NAMED**STATE'S INSPECTOR**

Appointment Made Under Recent Contract With Tennessee Copper Co.

J. J. Brown, formerly assistant state commissioner of agriculture, was appointed Wednesday by Governor Stanton as the state's inspector under the contract recently signed by the governor with the Tennessee Copper company near Ducktown, Tenn. The governor further designated Mr. Brown to act during the remainder of this year as the referee with the board of arbitration created by that contract.

Mr. Brown will receive a compensation of \$125 per month for making weekly inspections of the Ducktown smelter in Georgia during the fire season growing season of each year, to see that the company abides by its agreement in the contract to limit its output during that season so as to insure as little damage as possible upon the farming crops in the neighborhood.

Attorney General T. S. Fisher will have Saturday for Wednesday, and Sunday and ask that the hearing be held between the state and the Tennessee company be filed with the records of the litigation there.

The legislation authorizing a similar agreement between the state and the Ducktown Sulphur, Copper and Iron company, which is the other concern that operates a smelter near Ducktown, Governor Stanton has written to that company, but has not yet received its agreement to enter into the contract.

CREMATORY WORRIES ITS BUILDERS, SAYS ASHLEY

Councilman Declares Destructive Company Has 11 Skilled Men at Work on It

After making his usual daily visit to the new crematory Wednesday morning, Councilman Claude L. Ashley reported to Mayor Woodward that the destructive company has 11 skilled men at work on it.

"They have now brought their chief engineer," said Mr. Ashley, "and Mr. Dowd, the sales engineer, also is here. They have in all seven men in Atlanta. The plant burns garbage all right, but the thing that is worrying the destructor company is whether the plant, from the time of the burning of garbage, will do steam enough to generate 1,500 kilowatts of electric current, as guaranteed to produce. Last spring when the crematory contract was made for council, I made the prediction that the plant would never produce that much steam. They want me to do it, but it looks as if my prediction is going to be fulfilled."

Mayor Woodward is manifestly pleased over what he considers the destructor company's embarrassment.

He said, with a chuckle, "The company means: 'I reckon some of the folks who thought I didn't know what I was talking about are waking up and taking notice of my new crematory by this time. My opinion is that it will be quite a while before the destructor company even has the nerve to ask for that final payment of \$125,000 on the purchase price.'"

ATTORNEY FRANK HOOPER RECOVERS STOLEN WATCH

Timepiece Taken by Footpads on June 2 Is Found in Pawn Shop

City detectives have located in a pawnshop on Peters street the watch returned to Attorney Frank A. Hooper, who asserted that the watch was stolen from him by footpads June 2.

At the time Mr. Hooper was held up he was relieved of a considerable sum of money besides the timepiece, which he valued very highly.

"I thought I didn't know what I was talking about," he said, "but now I am waking up and taking notice of my new crematory by this time. My opinion is that it will be quite a while before the destructor company even has the nerve to ask for that final payment of \$125,000 on the purchase price."

BOARD UPHOLDS MAYOR**OVER COCHRAN'S PROTEST**

Grant Park Refreshment Stand Question Goes Over

A wordy clash between Mayor Woodward and President J. O. Cochran, of the board of park commissioners, marked the session of the board Tuesday afternoon and put some ginger in what otherwise would have been a very dull session.

This clash came after the board had opened bids for the erection of a refreshment stand and public comfort was for about \$4,200. Immediately after the bid was read Mayor Woodward took the floor and emphatically declared that the proposed contract should not be let. He stated that the board had only \$2,500 available for enter into a contract which would build a stand and that it could not legally do so.

The board accepted the mayor's suggestion, rejected all bids, and decided to take new bids for just the public comfort structure.

CARL FOUR "WREN'S NEST."

Mr. A. Melt Wilson and other ladies representing the Uncle Remus Memorial association, appeared before the park board and requested that the board make some arrangement whereby the corner of the late Joel Chandler Harris, which the association has purchased and dedicated as a memorial to him. Mrs. Wilson explained that the association had raised about \$20,000 and they were open to the public; that the corner of the old Harris home had been purchased and dedicated as a memorial to him. Mrs. Wilson explained that the association had raised about \$20,000 and they were open to the public; that the corner of the old Harris home had been purchased and dedicated as a memorial to him.

The board, after some discussion, decided to leave the matter up to the discretion of General Manager Dan Carey, who is to determine whether the Howell park forces could occasionally do work on the "Wren's Nest" grounds without expense to the city.

By agreement of counsel on both sides in hearing of the complaint before the state railroad commission of the city of Columbus against the Southern Railway, the hearing was postponed from October 14 to December 10.

LINE TO STONE MT.**OPEN NOVEMBER 1**

New Interurban Road From Atlanta to Stone Mountain Almost Finished

The railroad commission has been notified that the new interurban line from Atlanta to Stone Mountain will be in active operation on November 1. The construction of the line is practically complete.

In view of the near approach of the operation of this line, President Wright, of the Georgia Railway and Power company on Wednesday applied to the railroad commission for its approval of the proposed passenger and freight rates on this line.

The rates, which follow, will be interesting to a large number of future patrons of the line between Stone Mountain and Atlanta.

The passenger fares are divided into six zones, similar to the system on the Marietta line. The distance to Decatur is 7.45 miles; to Inglewood, 9.45; to Jolly's, 11.45; to Erskine, 13.45; to Woodstock, 15.45 and to Stone Mountain, 17.45.

The road wants to charge a straight fare of 25 cents to Stone Mountain, and 10 cents to Decatur. The other zones will be 5 cents for instance, from Decatur to the next station, 2 cents, and so on.

The rates are also specified on the communication books, containing fifty-four single trip tickets, with a thirty-day limit except in unusual conditions such as illness, when the time might be extended.

Some of the rates on the communication books are \$1.50 to Jolly's; \$5.00 to Erskine; \$6.50 to Woodstock and \$7.75 to Stone Mountain. Children under three years are allowed to ride free.

There will be no free transfers. The company also gave a list of proposed freight rates. These are about the same as those in effect on the short line steam roads of the state.

The board, after some discussion, decided to leave the matter up to the discretion of General Manager Dan Carey, who is to determine whether the Howell park forces could occasionally do work on the "Wren's Nest" grounds without expense to the city.

By agreement of counsel on both sides in hearing of the complaint before the state railroad commission of the city of Columbus against the Southern Railway, the hearing was postponed from October 14 to December 10.

WILD, ALL-NIGHT RIDE**TO KISS BRIDE GOOD BYE**

Young Moonshiner Makes Record Trip Before Going to Prison

Going without sleep for twenty-four hours in order that he might see his young bride for less than an hour before his trial in the Tute District court on the charge of moonshining, Charles Woodall, a young moonshiner, made a record trip to the mountains Tuesday night.

He lives twelve miles out from Canton, Ga., and in order to make the trip there and back in time for the session of court Wednesday, the young husband had to spend most of the time between 4:30 o'clock Tuesday afternoon and 3:30 o'clock Wednesday morning on the road.

Twelve miles of the trip, going and coming, was a lonely ride through the hills, and after all his trouble the young moonshiner had time for only the briefest visit.

"I was afraid I might be put up," he explained when his attorney asked him why he wanted to dull his mind by such a long journey and sleeplessness on the eve of his trial. "I was afraid I might be put up, and I wanted to see her one more before court."

His fear of conviction proved to be a premonition, for the jury found him guilty and he will be sentenced later in the day.

Woodall, who is about twenty-two years old, was arrested early in the year on the charge of moonshining, but made bond.

Afterwards he met the pretty young girl, and they were soon married.

GOVERNOR BACK FROM BARTOW COUNTY FAIR**AS BEING POSSESSED OF OTHER VALUABLE RESOURCES.**

Governor Stanton is quite enthusiastic over the Bartow county fair at Cartersville, which he attended Tuesday and at which he delivered an address.

"I was most agreeably surprised at the character of the exhibits shown," he said. "They would have done credit to a much larger territory, and they clearly showed that Bartow county is still a leader in agriculture, as well as being possessed of other valuable resources."

"I do not know when I have seen a finer lot of men or more pretty women in a crowd together. And they seemed prosperous and happy, too. There was a most interesting exhibit of the work done by the wives and daughters of the farmers in canning and preserving."

Chairman C. Murphy Candler, of the state railroad commission, will deliver an address at the fair Thursday night.

He lives twelve miles out from Canton, Ga., and in order to make the trip there and back in time for the session of court Wednesday, the young husband had to spend most of the time between 4:30 o'clock Tuesday afternoon and 3:30 o'clock Wednesday morning on the road.

Twelve miles of the trip, going and coming, was a lonely ride through the hills, and after all his trouble the young moonshiner had time for only the briefest visit.

"I was afraid I might be put up," he explained when his attorney asked him why he wanted to dull his mind by such a long journey and sleeplessness on the eve of his trial. "I was afraid I might be put up, and I wanted to see her one more before court."

His fear of conviction proved to be a premonition, for the jury found him guilty and he will be sentenced later in the day.

Woodall, who is about twenty-two years old, was arrested early in the year on the charge of moonshining, but made bond.

Afterwards he met the pretty young girl, and they were soon married.

NO PERIL OF FAMINE FROM ALASKAN STORM**(By Associated Press.)**

WASHINGTON, Oct. 8.—Reports from Nome say there is no danger of famine there because of the recent tidal storm.

Reindeer representing 150 tons of meat are within driving distance of the stricken city.

The Red Cross today authorized Mayor Jones, of Nome, to immediately draw upon it for \$500 for relief work.

ROTARY CLUB RAISES \$2,000 FOR CHARITIES

Rest of \$3,000 Fund Expected
to Be Raised Within a
Few Days

The Rotary club, which started a campaign a short time ago to raise \$3,000 for the Associated Charities, has passed the \$2,000 mark with its fund, which is constantly increasing.

The managers expect the fund to reach \$3,000 by Wednesday night, and a few more days of hard work will probably see the entire fund raised.

Josh Allen, chairman of the campaign committee, who has been out of the city for the past few days, was expected to return Wednesday and the proceeds will then be given increased impetus.

New subscriptions to the fund, reported at Tuesday's luncheon meeting of the committee, are as follows:

Reported by Ben Lee Crow: William Brown, \$10; H. B. Crow, \$5; Ben Lee Crow, \$10; Cable Piano company, \$10; J. L. Fisher, \$5; Louisa & Bates, \$5; M. J. McDonald, \$5.

Reported by J. Lee Barnes, of the National from hotel men, \$100.

Reported by J. C. McMillan: Frank Adams, \$10; Elmer Austin company, \$5; George L. Simpson, \$5; W. M. Rambo, \$5.

Additional subscriptions: Arthur Wagner, \$10; George M. Green, \$10; Mary & Berkele, \$10; E. H. Hinton, \$5; W. S. Spill, \$5; L. L. Foreman, \$5; W. C. Powell, \$10; Frank Hawkins, \$5; W. K. Hialeck, \$10.

Ubiquitous Nativity
Of "Bob" Adamson Is
Corrected by Father

A. F. Adamson of Clayton county, near Atlanta, father of Robert Adamson, was secretary to the late Mayor Taylor, of New York, and who is now assisting the mayoralty campaign of the Democrats in that city, called at The Journal Wednesday morning to say that he would like for this paper to correct numerous errors concerning "Bob's" nativity.

That was a fine write-up of Bob you see in The Journal Tuesday," said he, "but you missed his birthplace a few miles. Now, since Bob has become a public man of sufficient importance for his nativity to be printed, I would like to have it printed right. The newspapers have had him born in so many different places in Georgia that I am afraid he is getting bewildered—if he had them all.

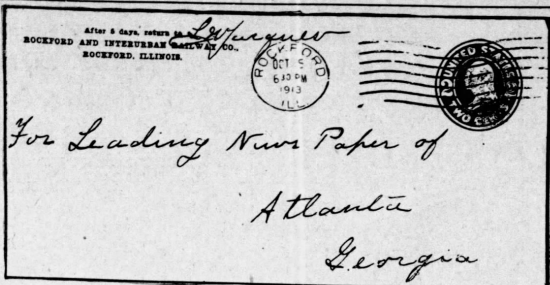

"You can just say that Bob Adamson was born in the northeastern part of Clayton county, near Rice, Ga., that he was sent to school more than four months continuously in his life, and that his education was mainly gained from reading the newspapers and periodicals he subscribed for at home and the books in the library of a German neighbor."

Mr. Adamson went on to say that he was asked a page in the state statute at the age of twelve years, where he made the acquaintance of a number of public men, and at the age of fifteen years went to work in Atlanta as a newspaper reporter. It was in 1911 that he went to New York.

GEORGIA BUILDING AT PANAMA EXPO
Charles J. Haden, president of the Georgia chamber of commerce, is in receipt of a letter from George Hough, city division director of the Panama exposition, with reference to the erection of a Georgia building at the fair at San Francisco in 1915.

Under the laws of the state it is unconstitutional for the legislature to appropriate funds for such a purpose and it is therefore necessary that the money be raised by the new state organization through some other channel. Just what the plans of the Georgia chamber are has not been made known. Mr. Haden will investigate the matter and it is probable a campaign will soon be initiated to raise the necessary funds.

YOU CAN'T FOOL UNCLE SAM

This envelope addressed to "The Leading Newspaper of Atlanta, Georgia," was promptly sent to The Journal by the Atlanta postal authorities. Uncle Sam knows.

SAYS VICE WAR WON ATLANTA CONVENTION

That the recent crusade on vice in Atlanta is the reason why this city won the 1914 convention of the Disciples of Christ, is the opinion of Dr. L. C. Bricker, who has just returned from the Toronto gathering of the organization.

On every hand, Dr. Bricker said, there were questions about the conditions here and our delegates were kept busy answering them. "It was evident," he said, "that the crusade waged in Atlanta had done more in the way of constructive advertising for the city than any other event in its history."

DRUMMER EVANGELIST ON WAY TO THOMASVILLE

Rev. Billy Williams, known as "The Drummer Evangelist," passed through Atlanta Wednesday on his way to Thomasville, Ga., where he will hold a ten-day revival.

He has been in evangelistic work for twenty-seven years, and during that time has given his talk, "Seven Romps with the Tiger," no less than 2,257 times. The lecture has been given in every state in the union. He talks to men only, and his revivals last ten days.

Mr. Williams is a Knight Templar, and has taken every degree in Masonry but one. His home is in San Jose, Cal.

CONCRETE FALLS FROM BUILDING: HITS GIRL

As the five-year-old daughter of Mr. and Mrs. J. S. Stewart, of 331 Central avenue, was passing the postoffice on Tuesday afternoon with her mother, a piece of hardened concrete fell from the top of the new Healy building, the raised edge striking her, a glancing blow on the head. Mrs. Stewart narrowly escaped being struck and it is considered providential that the little girl was not fatally hurt.

Dr. W. L. Champion, in the Grant building, dressed the wound and announced that it was merely painful and not dangerous.

Old People Are Given An Auto Ride and Sermon at St. Paul

Old people, many of whom have not had an opportunity to attend church in weeks, heard Rev. L. B. Bridges preach at the "Old Folks' Service" at the St. Paul Methodist church Tuesday morning. "Shut-ins" from all parts of the city were taken to the church in automobiles by the young ladies of the Philathea class, who pinned ribbons on the aged guests.

It has been announced that there will be a special service for children Friday afternoon and a special men's service on Sunday afternoon. Daily services will be held this week at 11 a. m. and at 7:30 p. m.

SIDEWALK SPIELING WILL BE ABOLISHED

Auctioneers and spellers will hereafter be obliged to stay inside and not outside. There is to be no more exterior work for these men, according to a new order laid down Tuesday by Chief of Police Havers.

The order prohibits auctioneering or spelling of any character on the streets or in store fronts in the city limits. Violators will subject themselves to arrest and a trial before the recorder, according to the chief's order, which was made after numbers of complaints against spellers had been received at headquarters.

So the passing throng will no longer be held up on the sidewalk by overzealous spellers.

"Another Line; That's How I've Stopped the Leak"

I've come to believe that you can't expect people to buy if they can't get you by a mighty comfortable route. When they call and find your telephone "busy" they'll naturally go somewhere else.

Is YOUR telephone door sufficiently wide?

An Auxiliary line will allow you to send or receive messages when your present line is in use, and will prevent that "busy" report which so nettles the trade and causes the loss of many a business opportunity. The additional cost is trifling.

Call the Business Office about it to-day.

Larry Doyle and Merkle, Who Have Hit Poorly of Late, Came Through With Best Brand of Ball—Giants Who Were Expected to Star With Willow Fell Down — It Will Take More Nervy Ball Playing if Giants Expect to Win Series

BAKER AND COLLINS.

In the aftermath of Marquard's rout and Giant defeat the experience is limited to this—the Athletics for that opening battle proved than the pitching arm.

Two years ago Baker beat the Giants almost single-handed. Y name Collins and with these two working together there could not be named. He lifted his world series average from .391 to .400, lifted his from .357 to .400. Between them they patted six hits out eleven bases, scoring four of the six runs made.

Collins' wallop in the fourth carried 400 feet, one of the longest

[illegible]

ne, and we had no trouble hitting him. I came back strong again in the series. I ran after they work Plank. Of course, I'm not discouraged. I believe we are going to win. We could have beaten Bender when we have run away with it.

So shy am I on pitching art,
Before they led me to fall,
They'd have to slip me to a start,
And show me how to hold the ball.
And yet I know enough to know,
A pop-eyed boob and all of that;
In which direction not to throw,
When this here Baker comes to bat.

t testimony of whys and where-
hat the batting eye is mightier
esterday a pal joined him by the
y be one answer—Baker, as an-

turned the ball right. The one that the outfielders' heads traveled just as fast toward the stand.

BENDER HITS

Bender pitched with the great arm into the batter. That is what gives him. The Giants hit him freely but the pitcher was the famed Drupe, the batter. He slipped over a stride he took a chance and broke a curve. The ball was a lot faster than much stuff as he usually carries it. A great lot of folks have asked me into the stand. It was curved me. I was lucky to get it, and I believe it is the same thing that has happened for that reason for that home run. The pitcher was times in that home run way through I felt very good going away by the steady way in which he great. Freddie Burns and Collins run on third base that saved us much.

He was encouraging and coaching the let us drop after the Giants scored the "You'll get Marquard yet," he said. And we did in the very next

BY TYRUS COBB

was simply a repetition of the former series in which the Athletics have participated in their present combination. It was just one thing that was for sure—their wonderful offensive strength. When nine men can lay the bat against the ball with the force that these Athletics used, at the same time show the accuracy in placing the bat against said ball, displaying that cool determination without seeming to hurry, they have to be reckoned with, and it takes more than an occasional pitcher to deny them victory. It takes a man with wonderful ability and wonderful judgment to take them off and face them safe for nine rounds. This was proven when Marquard faced them in the

ond and none at. From this time on he did not look as if he had much on it, and so I would consider that Marquard is just a fast ball pitcher, and when they hit that he is through.

MARQUARD LOOKED GRAND.

Marquard's conduct was wonderful. The first six bats delivered were strikes, as he seldom had a ball called on him in the early innings. Rube looked to be a 10 to 1 better bet than Bender in these early innings.

Bender started out almost opposite to Marquard. His first ball

HAT HOME RUN?

about the chief. He just sat on the e bases and struck his faith to Ben-argely responsible for the victory. e team all the way and he refused to e first run.

d. "Don't worry about it." ning.

—

By Larry Doyle
(Field Captain Giants.)

[illegible]

—
D. F. 1. B. 1

NEW YORK, Oct. 8.—I don't know when I have enjoyed a game of ball

[illegible]

Our manager was never worried about the chief. He just sat on the bench when the Giants got men on the bases and stuck his faith to Bender. "Connie" is another who was largely responsible for the victory. He was encouraging and coaching the team all the way and he refused to let us drop after the Giants scored the first run.

"You'll get Marquard yet," he said. "Don't worry about it."

And we did in the very next inning.

Few Players Come Through When They Are Expected to Star

HANK GOT KNOB'S LAUNDRY--BUT!

--BY FARREN

Georgia Team Enjoys a Rest After Battle

Second and Third Teams Are Doing Nicely and Promotions Are in Order--Ketrone Working the Linemen

ATLANTA, Ga., Oct. 8.—The Red and Blue eleven came out of the Alabama game with just one or two minor injuries. Ed Hitchcock was laid up with a bad shoulder, but should be in good condition before the game with Daltonville coming Saturday. There are one or two "charley horses" bothering some of the boys on the squad, but these men are improving around Sanford field and should be ready to play before many days have passed.

During the third and fourth teams had for a twenty-minute scrimmage and there are at least three men on the squad who are slated to move to the second varsity. Coach "Demp" Hines has taught these two teams football during the past two weeks and a few good plays were made this afternoon. The Red and Blue eleven took the time men and gave them a good workout in clearing the dummy and most of the men were able to play. Coach Hitchcock called for the regular line-up for the game.

The varsity backfield was composed of: McWhorter, Carey and Paul. There isn't much variety backfield, and when they play, they play.

When they play, they play. The varsity backfield was composed of: McWhorter, Carey and Paul. There isn't much variety backfield, and when they play, they play. The varsity backfield was composed of: McWhorter, Carey and Paul. There isn't much variety backfield, and when they play, they play.

LOOKING AHEAD. At the result of their clean-up game, the Athletics have the jump over the following are taking heart over the showing of Bender. It isn't that they even such a slugging team as continue such an assault upon Matthews, Tereau and because. On the other side of the argument, Bender was expected to be the star, and the Chief was expected to be the star. Bender was expected to be the star, and the Chief was expected to be the star.

SEEK THE ARROW LABEL. By every test it marks a good shirt. The laundered cuffs have graduated cutout interlinings which keep them from cracking.

Barker Plays At Brookhaven In Big Match

Birmingham Professional Will Team With McKenzie and Sunday Meet Vardon and Ray in 36 Hole Match

BY MELT BARKER. H. H. Barker, the Birmingham Golf club's professional, will be McKenzie's partner against Vardon and Ray in the exhibition match to be played October 12 over the Brookhaven golf course.

Barker is one of the best known professionals in the United States, and among the golfers in Atlanta he is well known as any of the cracks who have played here. He went to Birmingham from Garden City, N. J.

It was Barker who set the record of 69 for the East Lake course. He played in professional tournament three years ago when that distinction was gained, and Barker's name ever since that time has been a household word among East Lake golfers. It was my pleasure to act as scorer for a two-man match which was played when this record was made and a finer exhibition of consistent golf can scarcely be imagined. With two alone drives, perfect iron shots and deadly accuracy on the greens, he traversed the course without a single blemish. If he plays anything like this game during his match at Brookhaven, the famous English pair will most assuredly know they have been in a contest when it is concluded.

DISSENTING OPINION. Barker also designed the Druid Hills course which is just now nearing completion. This course has appealed to every golfer who has walked over it as one of the most scientific and attractive in the country. Barker was additional fame locally on account of this work.

There is a great deal of interest centered upon the approaching match between Barker and McKenzie on the one side and the great English cracks on the other. McKenzie is a finished player himself and while he will not be counted upon as strongly in the match as his playing mate, still he will undoubtedly figure in many holes. It will not be surprising to some spectators who will follow this foursome should Barker equal or even better the medal score of at least one of the Englishmen.

Aggies Get Game By Large Score

TIFTON, Ga., Oct. 8.—The Second District Aggies romped over the S. C. I. team from Sparks in the first game of the season here Monday afternoon, defeating the Sparks boys, 45 to 0.

The Aggies amassed a total of nine touchdowns and six goals. The feature of the game was the playing of Glover, who made four touchdowns and kicked six goals. Boys also the first year that they have ever had a team. The Aggies played good form and are trying to arrange games with Mercer and some of the other colleges.

Referee, Colonel Mitchell; umpire, Prof. Childs; time-keepers, J. L. Thrash and Prof. Richardson. Head Umpire, Prof. J. M. Thrash.

NEW YORK, Oct. 8.—Fred Merkle, the star first baseman, hopped away off the field while his team mates were at bat in the ninth inning. He had turned his ankle by slipping on the grass bordering the base line in the sixth inning. Merkle after the game said he was not badly hurt.

"I didn't have to limp so much as I did going off the field," he added. "I didn't like to take chances of hurting my ankle any more and was trying to get the strait. I will wear a brace tomorrow, and I'm sure it will hold up all right."

Richards Was Speed Demon At the 'Drome

Several Good Events Puled. Races Were for the Benefit of Jock McNeil's Mother. Good Crowd Present

Jack Prince's cotter of professional motorcycle races would today be able to recognize the best back of Tex Richards anywhere they saw it. It ought to be familiar to them, for Tex showed them all a clean pair of heels in every race run at the motordrome Tuesday night. Tex's victory in the motorcycle race won for him the Bill Stodard cup, on which he already had two legs and needed only one to win.

It was benefit night for the mother of Jock McNeil, the rider, who was killed while practicing some fancy stunts. A fair sized crowd was out, and in a day or two at American Express money order will be mailed to Jock's mother, who is living in Scotland.

First Heat—Richards, first; Lewis, second. Time, 46 seconds. Second Heat—Glen, first; Graves, second. Time, 44 seconds. Third Heat—Richards, first; Graves, second. Time, 44 seconds. Fourth Heat—Richards, first; Graves, second. Time, 44 seconds. Fifth Heat—Richards, first; Graves, second. Time, 44 seconds. Sixth Heat—Richards, first; Graves, second. Time, 44 seconds. Seventh Heat—Richards, first; Graves, second. Time, 44 seconds. Eighth Heat—Richards, first; Graves, second. Time, 44 seconds. Ninth Heat—Richards, first; Graves, second. Time, 44 seconds. Tenth Heat—Richards, first; Graves, second. Time, 44 seconds.

PREMIER PITCHER will have the officers and directors of the Atlanta Baseball club to take charge of the game. The first ten red headed fans at the door will be admitted free. Friday will be "Royal Roster" day.

Jackson's Hit Won for Naps

CLEVELAND, O., Oct. 8.—Cleveland again defeated the Pittsburgh Nationals 2 to 1 in an eleven inning pitchers' battle. Gregg, Cleveland's star south paw, opposed Robinson, Pittsburgh's best left hander, and honors were about even. Gregg's first base on balls helped Pittsburgh to their only run and Robinson's base on balls allowed Cleveland to score the deciding tally.

In the fourth, Dolan walked, took second on Wier's grounder and scored on Wagner's single to center. In the sixth Jackson reached first on Fox's fumble and scored on Ladouceur's single which Carey allowed to get past him. In the seventh Lettold got a base on balls. Chapman sacrificed him to second and he scored a moment later on Jackson's double. Only about 2,500 were present. Hans Wagner, who failed to get a hit Monday, got two singles today, while Ladouceur, his rival for seniority, got just one.

RAY AND VARDON Win Their Match. BALTIMORE, Oct. 8.—Harry Vardon and Edward Ray, British golfers, defeated B. Warren Corkran, local amateur champion, and George D. Sargent, professional of the Chevy Chase club, at Washington, in a thirty-hole match. The Britons clinched the match at the thirteenth hole in the afternoon's play. The morning round resulted 5 up for Vardon and Ray, whose play throughout the day was phenomenal over a course with which neither was acquainted. Vardon equaled the course record in the afternoon round.

UHLAN—World's Greatest Trotter. BILLINGS' trotting gelding, Uhlman, made historic the 1911 meet at Cleveland, when, on August 11, he lowered the world's record held from 1906 by Major Delmar, by covering the half-mile to wagon in 59 1/4 seconds. This clipped 3/4 seconds off Major Delmar's mark.

Uhlman's new record is not only the world's trotting record to wagon, but even faster than Major Delmar's record of 59 1/4 seconds to sulky and only a quarter of a second slower than Dan Patch's paced half-mile to sulky behind a wind shield.

Sets Two Records

CLEVELAND, Oct. 8.—Two world's records were established yesterday in the first annual tournament of the National Amateur Caster association. C. O. Dorchester set a new mark of 155 feet with a regulation fifteen-foot rod. In the light tackle accuracy fly casting event, N. N. Bellows scored all previous performances by scoring 100.

Ball casting and dry fly honors went to M. Wheeler and T. A. Forsyth. Forsyth took the trophy for all-round best performance in all events.

WELSH vs. SAYLOR. INDIANAPOLIS, Ind., Oct. 8.—Freddie Welsh, lightweight champion of Great Britain, and Milner Saylor, of Indianapolis, will fight at Winnipeg, Canada, October 17.
